PANDEMIC STORIES

How did you experience the Covid-19 pandemic? Do you still have stories to tell? Join us for a different kind of research.

Institute of Social and
Preventive Medicine (ISPM)

Your story matters.

We share our Covid-19 experiences with a group of 8-12 people during 2 hours. Along with that we will eat and drink something nice. We welcome all views, thoughts and experiences and are open to different opinions.

Can I participate?

Anyone over the age of 18 who lived in the Canton of Bern during the pandemic, partly or the whole time, can participate. We especially encourage the following people to participate:

- who lived in rural areas during the pandemic.
- have a migrant background.
- are part of a queer community.
- have refugee experiences.
- are undocumented residents of Switzerland.
- belong to a religious minority.
- are labeled as Covid 19 skeptics or consider themselves as Covid 19 critics.
- and other groups/communities who want to give a voice to their story.
